REPORTING

Our streamlined reporting system offers customized accounting data – just the way you like it.

We've maximized digital report cataloging and PDF support to make Client Write-Up an even powerful business tool offering.

+ Memorized report formatting*
+ Report groupings*
+ Functionality to remember page indexes and orientations
+ Capacity to remember report filters and selected records
+ Ability to log memorized reports directly to the appropriate report group
+ Simultaneous duplicate report processing

FINANCIAL FORMATTING SYSTEM

Our innovative 'Maintain Financial Statement Format' program combines all aspects of formatting (Lines, Reports, Grouping and even Types) under one convenient option to transform Financial Statement Formatting into a simple and intuitive process.

The comprehensive scope and flexibility of the CertiflexDimension Financial Formatting System is virtually unparalleled in today's business accounting software.

In fact, one of the very best financial report writers in the industry just got even easier to use via:

+ Combined formatting sub-systems
+ Landscaped orientation override (now available by report)
+ Standard Groupings types for summarized and detailed options
+ Spacer style columns designed to completely eliminate tab positions in F/S Types
